

## Lancer Timber Bollard

The most popular of our timber range, and a slightly more decorative option than the Rifleman™. Whether as part of a rail system or a stand alone bollard, the Lancer™ complements any area it is applied to.

It comes as standard at 150mm x 1200mm long, with three bands and a pitched top incorporated.

Reflective striping can be added to make this bollard visible night and day.

Length 1200 long  
(800/900 AGL , 400/300 BGL)  
Other lengths available upon request.

Diameters Available ● 150 mm

Options ● Standard Root Fixed  
● Removable with Ground Socket
